Introductions and Minutes of the previous meeting were agreed

Matters arising discussed

Agenda

1.The group reviewed their objectives and endeavoured to come up with some education presentations for future meeting. **Group to action**

2.The group continued to work on and complete their spreadsheet in order to gather information on their staffing situation. They are collecting information on the following; Trust, Site, Unit description, number of ACCU beds, number of therapy staff and banding, rehab and respiratory minimum standard, clinical lead contacts and any comments. Each unit will complete the spreadsheet and it will be collated and stored on the Network website member's page. Log in required (from olivera.nicolic@nhs.net) to access information.

3. The group did more work on their teams/services unique selling points to sell themselves to share and use when planning for and applying for more resources and advertising for posts. This has now become a working document and when completed will be shared by all.

Next meeting dates 26th June 2019 at Barts Hospital and 3rd December 2019 at The London Clinic
